Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-6, drawn to an apparatus, classified in class 435, subclass 287.3.
- II. Claims 7-10, drawn to method and apparatus for producing biochips, classified in class 435, subclass 287.3.
- III. Claims 11-30, drawn to a method and apparatus for producing biochips, classified in class 438, subclass 288.3.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are independent and distinct. Inventions are independent and distinct if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are not disclosed as capable of use together and they have different functions i.e. the apparatus of Invention I functions to provide a biochip for nucleic acid synthesis, the method and apparatus for producing biochips of Invention II function to provide biochips comprising DNAs, RNAs or proteins and the method and apparatus of Invention III function to provide biochips of amplified DNA.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Mr. Moonray Kojima on 16 July 2001 to request an oral election to the above restriction requirement, but did not result in an election being made. Mr. Kojima requested that a written Restriction Requirement be mailed.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1655

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
